SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Classification

						Classification
	Common Name		EINECS/			according to Directive
Chemical Name	<u>or Synonym</u>	CAS No.	ELINCS No.	<u>% (w/w)</u>	GHS Classification	67-548/EEC
2-Methyl-2,4-pentanediol	Hexylene glycol	107-41-5	203-489-0	25 - 40	Skin irritation : Category 2	Xi
					Eye irritation : Category 2	R36/38

Other ingredients not listed in this section are non-hazardous or business confidential.

SECTION 4. FIRST AID MEASURES

Eyes: Immediately flush with water for 15 minutes. Obtain medical attention if irritation occurs.

Skin: Remove contaminated clothing and wash with soap and water. Obtain medical attention if irritation occurs.

Inhalation: If first aid is required move victim to fresh air.

Ingestion: Do not induce vomiting and obtain medical attention immediately.

SECTION 5. FIRE FIGHTING MEASURES

<u>Suitable Extinguishing Media</u>: Carbon dioxide, dry powder, foam, or water spray. Water can be used to cool fire exposed containers. <u>Unsuitable Extinguishing Media</u>: None known.

<u>Specific Hazards Arising from the Chemical</u>: Silicon Dioxide. Carbon oxides and traces of incompletely burned carbon compounds. Formaldehyde.

<u>Special Protective Actions for Fire-Fighters</u>: Self-contained breathing apparatus and protective clothing should be worn in fighting fires involving chemicals. Use water spray to cool fire exposed containers.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions and Protective Equipment: Avoid eye and skin contact. Use personal protective equipment.

Environmental Precautions: Prevent from entering drains or water sources.

<u>Containment/Clean up</u>: Collect for disposal. Clean up remaining materials from spill with suitable absorbent. For large spills provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean area as appropriate since some silicone material, even in small quantities, may present a slip hazard. Final cleaning may require steam, solvents or detergents.

SECTION 7. HANDLING AND STORAGE

<u>Handling Precautions</u>: Avoid eye and skin contact. Do not take internally. Use with adequate ventilation. Wash after handling. Exercise good industrial hygiene practice.

Storage Conditions: Keep container tightly closed and away from oxidizing materials.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

OCCUPATIONAL EXPOSURE LIMIT VALUES / BIOLOGICAL LIMIT VALUES:

Industrial Hygiene Standards

Ingredient Hexylene glycol <u>CAS No.</u> 107 – 41- 5 Exposure Limit ACGIH 2005, TLV-TWA: 25ppm

ENGINEERING CONTROLS:

Local Ventilation: Recommended. General ventilation: Recommended.

PERSONAL PROTECTIVE EQUIPMENT:

Respiratory protection: In the case of vapour formation use a respirator with an approved filter. Hand protection: Chemical protective gloves are recommended (Rubber, Neoprene, or Nitrile). Eye protection: Use proper protection - safety glasses as a minimum. Skin protection: Impervious clothing. Hygiene measures: Observe good industrial hygiene practices. Wash after handling.

<u>Note</u>: These precautions are for room temperature handling. Use at elevated temperatures or aerosol spray applications may require added precautions.
