Luscious Lips

Moisturizing Lip Balm

Description:

Consumers prefer lip balms to have softness, cushion and lubricity during application. Ultimately any balm needs to provide emollience. Siltech has solutions to keep lips completely covered and moisture rich. **Silwax® J219M** represents a game-changing shift in silicone wax technology. This innovative product includes both liquid and solid alkyl dimethicone functional groups to provide cushion, lubricity and emollience. The multi-functional performance also includes syneresis reduction. In combination with **Silwax® D02**, which imparts additional light, cyclomethicone-free lubricity, and **Silwax® J226**, which adds gloss, **Silwax® J219M** will help to keep lips luscious!

Ingredients:

| Part ID | Description (Supplier) | INCI Name | Weight % |
|---------|--------------------------------|------------------------------|----------|
| A | | | |
| | Moringa Oil | Moringa Oil | 9.10 |
| | Organic Coconut Oil (Kirkland) | Cocus Nucifera (Coconut) Oil | 13.63 |
| | Silwax® D02 (Siltech) | Ethyl Methicone | 18.18 |
| | Silwax® J226 (Siltech) | Ceretyl Dimethicone | 4.55 |
| | Silwax® J219M (Siltech) | Cetyl/hexacosyl Dimethicone | 27.27 |
| | Syncrowax HR-C (Croda) | Tribehenin | 27.27 |
| | Preservative & Fragrance | Preservative & Fragrance | q.s. |
| | | Total | 100.00 |

Procedure:

- 1) Combine all of the ingredients except the preservative and fragrance. Heat to 80°C.
- 2) Mix until uniform.
- 3) Cool to 65°C.
- 4) Add preservative and fragrance and mix well.
- 5) Pour into mold.
